

Dear Jude -

2-6-85

I hope you remember me... we met once  
at a San Jose get-together.

I am a female-to-male and have lived  
full-time as a male 5 years. I began hormones  
in Nov '79 and had chest surgery July '80.  
~~You may remember me as editor of the GGG/G newsletter from 1979-80.~~  
I now find myself in a financial position to  
seriously pursue the rest of the operation.  
I am most interested in the technique  
~~which~~ called "freeing the clitoris", using it  
for the micro phallus. ~~Disturbance office~~  
~~to discuss~~

I have been unsuccessful  
in ~~procuring~~ securing a surgeon in the Bay Area,  
and so am inquiring into your program.

Please send information / application.

Best regards
