March 5

Mortel, 05-03-1990

Dear Lou,

As you may understand I was very proud, together with my wife Jose, to make it possible to honour you for your work. I know how much of work it is, to give our people the possibility to correspondend, meet and talk to their companions.

So I'm very glad that I had the possibility to make it possible to give you such a reward. However I not have had the chance to meet you in person, I have the feeling that I know you like a good friend. I have seen your picture in the Genderworker and that has brought you a little nearer.

Perhaps you will like it to see a picture from me, so you have any idea what kind of a guy I am. So I have a recent photo enclosed in this letter.

This time I was not able to write a letter for FTM. There where so much reactions of people all over the world, that I have needed a lot of time to write them back. But my English is not so well as you can see, so it takes much time for me to write. But I am very glad that your magasine has been read in so many countries.

I also should like it very much to receive FTM regulary. So I also enclosed some money in this letter. It seems to be very difficult to send it by a bank. But I do think it will reach you in this way. So you have to change it by your bank.

Lou, I wish you a happy 1990, with best regards,

Jean van Aarle
