Ray Blanchard, PhD  
Gender Identity Clinic  
Clarke Institute of Psychiatry  
250 College Street  
Toronto, Ontario, Canada M5T 1R8

Dear Dr. Blanchard:

Thought you'd like to have a copy of my article on female-to-gay males which appeared in The Advocate June 6.

I have seen Walter Bockting, who is working with Eli Coleman on the female-to-gay male study, several times and have supplied him with additional names of female-to-gay males I have contacted throughout the U.S.

I understand that Bockting/Coleman will present their material at the Harry Benjamin International Gender Dysphoria Symposium in Cleveland in September, and that Dr. Ira Pauly will show his videotaped interview with me. Pauly also showed the video at the Annual Meeting of the American Psychiatric Association here in San Francisco in May. The female-to-gay male has come of age.

I am still "living" with AIDS, although my health really is going downhill. But I feel thankful for each day!

Regards,

Lou Sullivan
