Dear, Dear Lou,

I just got your letter. I am so sorry to hear your diagnosis. So many of my friends have been diagnosed. The rest of us are probably right behind.

Lou, please call me whenever I can be of help. I know many people who truly believe that their lives after the diagnosis were the richest and most meaningful part of their lives. And yes, there is sex after AIDS.

Lou, please (times a thousand) use your outrage in your hands live and enjoy the many AIDS support groups around. The UC does a lot. Tell you about them. If you can't find them call me. Also check the D.A.R. There are many groups. Everyone who finally goes to one lives it. Take care of yourself. of your good people. Call me if I can be of help.

Love
Paul

P.S. you didn't give me your phone number.
P.S.S. If the group ever asks questions about you, what do you want me to tell them?
